PROFESSIONAL SUMMARY

Implementation, operations, and business-analysis professional with experience resolving complex cases, translating policy into action, improving workflows, coordinating cross-functional work, training users, and maintaining accurate documentation in regulated environments. Hands-on portfolio experience includes a simulated end-to-end SaaS implementation and an AI-enabled product concept covering discovery, requirements, process mapping, data validation, UAT, enablement, launch readiness, source governance, product strategy, and measurement. Currently pursuing an M.S. in Information Technology - Product Management.

CORE COMPETENCIES

SaaS Implementation Lifecycle | Business Analysis | Requirements Documentation | Process Mapping | Project Coordination | Product Operations | Data Validation | UAT & Defect Tracking | Launch Readiness | Customer Onboarding & Enablement | Workflow Improvement | Stakeholder Coordination | Risk & Dependency Tracking | Knowledge Management | Applied AI | Reporting & Analytics

PROFESSIONAL EXPERIENCE

Financial Solutions Advisor

University of Maryland Global Campus | Remote - Adelphi, MD | January 2024-Present

- Analyze 400-1,200 student accounts monthly, validating documentation, financial activity, enrollment requirements, and discrepancies while maintaining institutional and federal compliance.
- Manage 200-300 complex cases monthly involving federal aid, tuition and payment plans, military and veteran education benefits, employer tuition assistance, and student-account operations.
- Conduct root-cause analysis on escalated issues through policy research and cross-system documentation review; coordinate solutions across Financial Aid, Registrar, Student Accounts, Admissions, Veteran Certification, and Success Coaching.
- Use Salesforce, Workday, PeopleSoft, OnBase, Verint, Five9, and Microsoft 365 to research account history, document decisions, manage work, and communicate accurate next steps.
- Train and onboard newly hired advisors through structured shadowing, job aids, coaching, and workflow guidance; contribute recommendations that improve consistency and operational knowledge sharing.
- Provide individual guidance and informational webinars while maintaining FERPA compliance; consistently earn positive customer feedback, including 6-10 five-star surveys in typical months.

Executive Assistant - Volunteer Assignment

Helping Hand for Relief & Development | Amman, Jordan | February 2023-October 2023

- Prepared executive reports, proposals, contracts, correspondence, spreadsheets, and operational documentation to support nonprofit leadership and day-to-day administration.
- Maintained structured tracking and reporting for more than 5,000 orphan sponsorship records; coordinated confidential information, calendars, travel, and Arabic-English materials with accuracy and discretion.
- Supported stakeholder communication and international humanitarian activities, helping preserve administrative continuity during a maternity-leave assignment.

Medical Receptionist

Saxon Internal Medicine | Orange City, FL | October 2023-January 2024

- Supported a high-volume clinical office serving approximately 50 patients daily through insurance verification, appointment and telehealth scheduling, payment collection, registration, and accurate eClinicalWorks documentation.
- Coordinated patient, provider, and office communication while maintaining HIPAA-compliant records and protecting sensitive information.

Clinical Support I

DaVita Laboratories | DeLand, FL | January 2022-August 2022

- Supported high-volume laboratory operations through accurate specimen processing, verification, routing, and workflow coordination under established quality and safety procedures.
- Verified specimen integrity and patient information, corrected barcode and documentation exceptions, and escalated discrepancies requiring additional review.

SELECTED PORTFOLIO PROJECTS

LaunchReady - SaaS Implementation & Onboarding

Independent Simulated Portfolio Project | 2026 | hydimaqousi.github.io/hydi-portfolio/projects/launchready/

- Designed a fictional end-to-end employee-operations SaaS implementation for a 475-employee, two-location organization, demonstrating an Implementation Project Lead / Implementation Analyst role from discovery through a simulated 30-day review.
- Produced a discovery questionnaire, business requirements, current- and future-state workflows, user stories and acceptance criteria, traceability matrix, eight-week implementation plan, RACI, RAID log, decision log, and weekly status reporting.
- Created configuration requirements, data-import and mapping workflows, intentional data-quality errors, validation rules, correction evidence, 15 UAT scenarios, defect tracking, exit criteria, and a 100-point launch-readiness assessment.
- Developed onboarding, training, quick-reference, admin-handoff, launch-communication, hypercare, adoption-metric, and post-launch materials. Evidence includes a 15-page case study, 16-tab workbook, and 10-slide recruiter presentation. All customer details and outcomes are simulated.

OpsGuide AI - Source-Grounded Decision Support for Financial Aid Operations

Independent Product Concept | 2026 | hydimaqousi.github.io/hydi-portfolio/projects/opsguide-ai/

- Created an independent product concept to reduce policy-search friction and support more consistent advisor decision-making using public Federal Student Aid and institutional guidance.
- Translated an operational pain point into an advisor-focused MVP featuring natural-language retrieval, source hierarchy, transparent calculations, effective-date awareness, clarification for missing inputs, conflict handling, and human escalation.
- Developed an interactive V0.5 prototype, product strategy, advisor scenarios, transparent calculation concepts, source-governance model, UAT concepts, pilot success measures, responsible-AI safeguards, and roadmap.
- Demonstrates product management, applied AI, business analysis, process improvement, UX, and knowledge management. This is an independent concept, not a production system or verified employer outcome.

EDUCATION

Master of Science in Information Technology - Product Management, In Progress | Western Governors University | Expected August 2027

Bachelor of Science in Laboratory Management | University of Maryland Global Campus | May 2023

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Google Project Management Professional Certificate | Completed

Google AI Professional Certificate | Earned August 2026

Microsoft Power BI Data Analyst Professional Certificate | In Progress

TECHNOLOGY

Salesforce | Workday | PeopleSoft | OnBase | Verint | Five9 | Microsoft Excel | Microsoft Word | Microsoft Teams | Outlook | Microsoft 365 | Power BI (Developing) | eClinicalWorks | Student Information Systems | Electronic Document Management Systems

COMPLIANCE, OPERATIONS & LANGUAGES

FERPA | HIPAA | Policy Interpretation | Documentation Accuracy | Sensitive Information Handling | Quality Assurance | Case Management | Financial Operations | Arabic - Fluent | English - Fluent

PORTFOLIO EVIDENCE

Portfolio: hydimaqousi.github.io/hydi-portfolio/ | Includes interactive case studies, downloadable implementation artifacts, business-case documentation, a source-grounded AI prototype, and clearly labeled simulated project evidence.
